**Cocoanut Oil Fine For Washing Hair**

If you want to keep your hair in good condition, be careful what you wash it with.

Most soaps are harsh and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Multisilf cocoanut oil shampoo (which is pure and entirely greaseless), is much better than anything else you can use for shampooing, as this can't possibly injure the hair.

Simply moisten your hair with water and rub it in. One or two teaspoonfuls of Multisilf will make an abundance of rich, creamy lather, and cleanses the hair and scalp thoroughly. The lather rinses out easily, and removes every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and easy to manage.

You can get Multisilf cocoanut oil shampoo at any drug store. It is very cheap, and a few ounces is enough to last everyone in the family for months. Be sure your druggist gives you Multisilf. —Advertisement.

Monday afternoon. The date decided upon is February 18.

Protest had been made by some of the club members at the idea of changing the time for the breakfast from February, which is the birth month of the club. The only time the breakfast has not been given in February was the year of the "flu" epidemic, when no social gatherings were permitted during the month of February.

A precedent established some years ago for having the club breakfast on the third Friday of the month of February was brought to the attention of the board, and it was decided to follow out that precedent, with the exception of placing the date on Saturday instead of Friday, since a number of the club members, who are teachers, could not attend Friday.

**We'll save you money, time and worry on your family washing**

Many folks still have the old idea about laundry service—that it is costly. The fact is, we will wash and iron all of your table and bed linen, towels, and other flat pieces, for less than you can have your washing alone done at home.

We'll save you money, time and worry, and we'll do better work for you than any home laundress can, because we've paid thousands of dollars for special

equipment which cannot be duplicated in the home.

Every gallon of water we use is rain-soft, absolutely pure; every ounce of soap is carefully selected for its purity and mildness.

Send us your family bundle this week—include everything that needs washing. When it comes home you'll change your ideas about laundry service. Call us up today and talk it over.

### BULGARIA OFFERS TRADE TO AMERICA

SOFIA, Feb. 4.—Christo Manoloff, Bulgarian minister of railways, is anxious to have American locomotive

manufacturers and railroad supply houses look into the possibilities of business in Bulgaria.

He says that one of the greatest present needs in Bulgaria is a plant for the construction and repair of locomotives and freight cars. He has on hand nearly 100 locomotives and several thousand freight cars awaiting repairs and the country had no facilities for this purpose.

"Although the country is going through a period of great financial and economic stress," said M. Manoloff, "we are preparing actively for the extension and reconstruction of our railways. We would like to have the help of your resourceful and experienced American railway men and contractors in this direction."

"We are planning the construction of more than 500 miles of new railroads in which we will need foreign technical skill and capital. Amer-

cans will have the preference because I think they lead the world in these two requirements."

### DISCLAIMS CONQUEST

SOFIA, Feb. 4.—Premier Stamboulsky denies the reports that Bulgaria awaits the favorable moment to snatch Thrace from Greece. "First of all," he continued, "let me say that we have nothing to do with Greece on the question of Thrace. Under the treaty we ceded Thrace to the great powers, and they promised to give us an economic outlet through Thrace on the Aegean sea. Secondly we are utterly disarmed and helpless and are in no position to take warlike measures against any of our neighbors. Our 300,000 rifles and all our artillery and machine-guns are at the bottom of the Black sea, and our men are tilling the soil."

**Conspicuous nose pores grow larger if neglected**

THE pores of your face are not as fine as those on other parts of your body.

On the nose, especially, there are more fat glands, and there is more activity of the pores. If these pores are not properly stimulated and cleansed, they clog up and become enlarged.

To reduce enlarged pores, follow every night this simple treatment:

Wring a soft cloth from very hot water, lather it with Woodbury's Facial Soap, then hold it to your face.

When the heat has expanded the pores, rub in very gently a fresh lather of Woodbury's.

Repeat this hot water and lather application several times, stopping at once if your nose feels sensitive.

Finish by rubbing the nose for 30 seconds with a piece of ice.

GET a cake of Woodbury's today, at any drug store or toilet goods counter, and see what an improvement this treatment will make the first time you use it.

Do not expect to change in a week a condition resulting from long neglect. But follow the treatment persistently and you will be able to reduce the enlarged pores and make them inconspicuous.

A 25-cent cake of Woodbury's lasts for a month or six weeks of this treatment and for general cleansing use. The Andrew Jergens Co., Cincinnati, New York and Perth, Ontario.
